Repairs to the Almshouse and Improvements Ordered by the Committee.

The Committee on Relief of the Poor met yesterday afternoon, and after ordering the payment of certain bills agreed to adopt the report of the sub-committee appointed to investigate and report what repairs were needed to the Almshouse building. The report recommended that the roof be sheeted and re-slated, and felt wadding be placed between the slating and the sheeting. This will cost about \$1,700. Also that the building be pained on the outside, and this will cost between \$500 and \$600.

The report also recommended that a room, 21x22 feet, be built in a line with the hospital, at the Colored Almshouse, at a cost of about \$250. This house will be built for the treatment of patients, suffering from special diseases. The Superintendent of the Poor, Mr. Richard W. Carter, is charged with the special supervision of these repairs and improvements.
